

## Innovative Outdoor Lighting Systems

SABER AND FLEX NEON

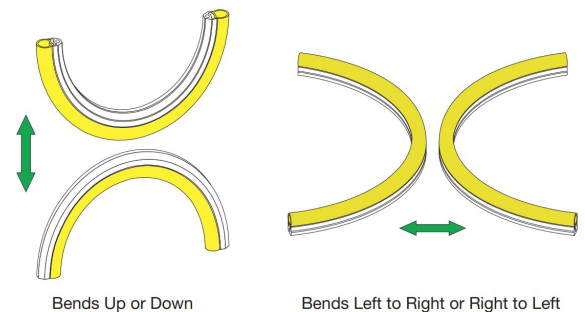

## FLEX NEON

## Highlight and Accentuate with Our Flex Neon Lighting System

Flex Neon provides unlimited creative freedom for lighting indoor and outdoor spaces. Our unique, patent-pending IP67 Rated Up-Down bending or Left-to-Right bending silicone channels create eye-catching landscaping, and indoor/outdoor architectural highlights. Illuminate pools, patios, outdoor structures, interior walls, and coves with LED straight lines or curves. Create evening ambiance with Warm Dim, Tunable White and RGB+TW.

PURE SMART™ by PureEdge Lighting WIZ PRO

## OUTDOOR TRACK

### Modern Outdoor Track Lighting, Rain or Shine

Outdoor Track allows you to create the perfect exterior environment all year long.

This patent pending system is finished with a tough marine grade powder coat to protect it from the elements even in the harshest environments.

## SABER/SABER MINI

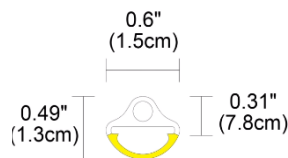

### Paint the Outdoors with Light

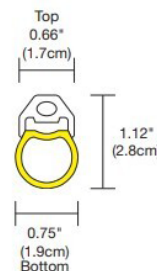

#### SABER

Saber, the new USA patent-pending lighting system by PureEdge, takes architectural lighting to the next level by creating free-form lighting in outdoor spaces. LED rounded strips of light create soft, glare-free ambient illumination. Saber's 3-dimensional, wet-listed, suspended stream of light provides ambient illumination in multiple color temperatures, as well as warm dim technology to help create a relaxing environment. Available in Tunable White, RGB, RGB+White and RGB+TW for design flexibility.

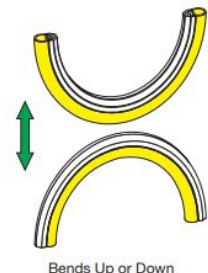

Saber Mini features small profile of 0.49" for precise line of vibrant light. Combine Saber and Saber Mini to create a dimensional effect!

## MINI STAR

### Get Dramatic Color with Ministar

Mini Star from PureEdge Lighting combines high lumen output with a compact design providing you with a powerful outdoor lighting solution that won't distract from architectural details or landscaping.

Featuring a rugged design and innovative thermal management, Mini Star can weather the elements with ease.

### Slick Linear

Highlights Texture in the Environment

## SLICK LINEAR

Slick Linear from PureEdge Lighting is a powerful outdoor lighting solution in a sleek weatherproof package. Budget friendly, less than 1" wide, and easy to install, the Slick Linear LED lighting system provides aesthetic and functional lighting in outdoor environments.

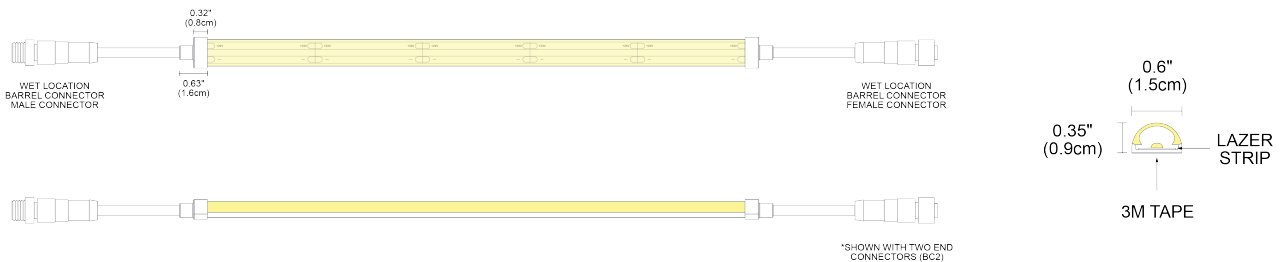

# NEW PRODUCT

## LAZER ARC

## Finish Your Landscaping with Contoured Illumination

New! Patent pending Lazer Arc allows you to accent and illuminate pathways and curved structures. Our outdoor rated flexible LED strip features a thin profile and a premium silicone coating which mounts inside a flexible aluminum channel. Design your landscaping with architectural illumination from PureEdge! Available in Tunable White, RGB, Warm Dim, RGB+W and RGB+TW.
