

Installation Instructions for **Light Channel 75° Mounting Clip**

IMPORTANT INFORMATION

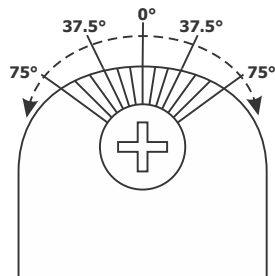

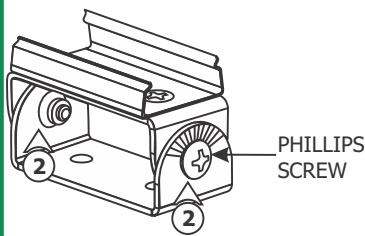

- This instruction shows a typical installation.

SAVE THESE INSTRUCTIONS!

Install the Light Channel

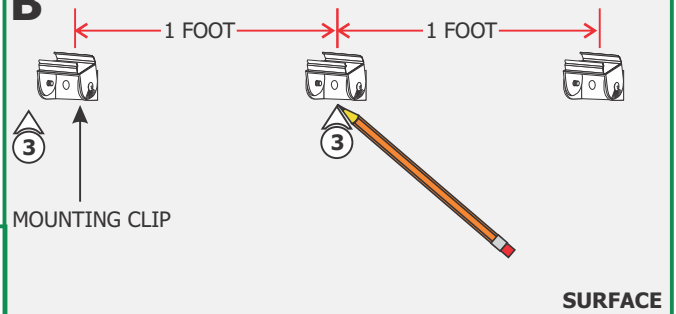

A

1: Determine the location for the Light Channel.

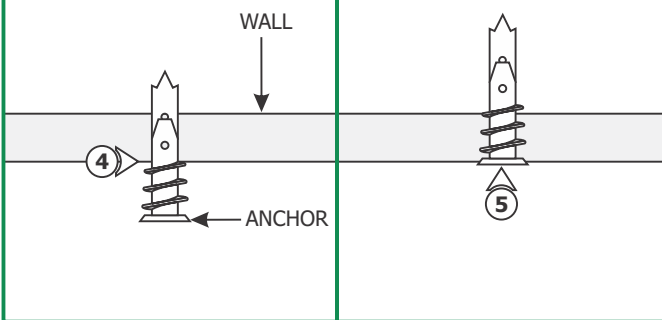

2: Slightly loosen the Phillips screw on the sides of the mounting clip, so that the clip rotates easily.

B

3: Place the mounting clips on the surface every 1' (measure from the center of the mounting clip) and mark the screw locations.

C

NOTE: Steps 4 and 5 are for drywall mounting. Omit these steps if mounting the clips to a wood surface directly. **ANCHORS ARE NOT PROVIDED.**

4: Tap the anchors onto the marked points up to the threaded portion with a hammer.

5: Screw in the threaded portion of the anchors with a Phillips screwdriver.

6: Line up the mounting clips to the anchors and secure it to the anchors by tightening the two #8-32 screws.

7: Set the angle on the mounting clip in which the light channel will be installed in (refer to diagram A), and tighten Phillips screws on the sides to lock it in place.

8: Refer to the Light Channel instruction to complete the installation.
