PSB-96W-010-24VDC-WDPS-IW	8.5"	14.25"

DESCRIPTION

For use with ProDim LED Strip. Flicker-free 0.1-100% dimming. The low voltage output dims down to off with a 0-10V dimmer. The enclosure provides a space inside for electrical connections. In-Wall Power Supply Kit includes power supply. Oversized box cover, and adjustable bar hangers. T-Bar Mounting Kit includes power supply, box cover, and T-bar grid bars for an easy install of the Junction Box above ceiling within easy reach, supplied with 4' of 14 gauge pair Teflon cables and lever nuts. Power Supply features short circuit, overload, and thermal protection.

APPLICATIONS

Indoor, Damp Location

MOUNTING

Surface mounted with 1/2" knock outs

POWER INPUT

120-277VAC

POWER OUTPUT

Class 2; 24 volts DC PWM4A, up to 96 watts maximum per load

EFFICIENCY

97%

AMBIENT OPERATING TEMPERATURE

-25° C to 40° C

DIMMING

Recommended 010 dimmers that have a trim setting to ensure the LED will dim to off. Some 010 dimmers require additional power packs.

DIMMING CURVE

Linear

COMPLIANCE

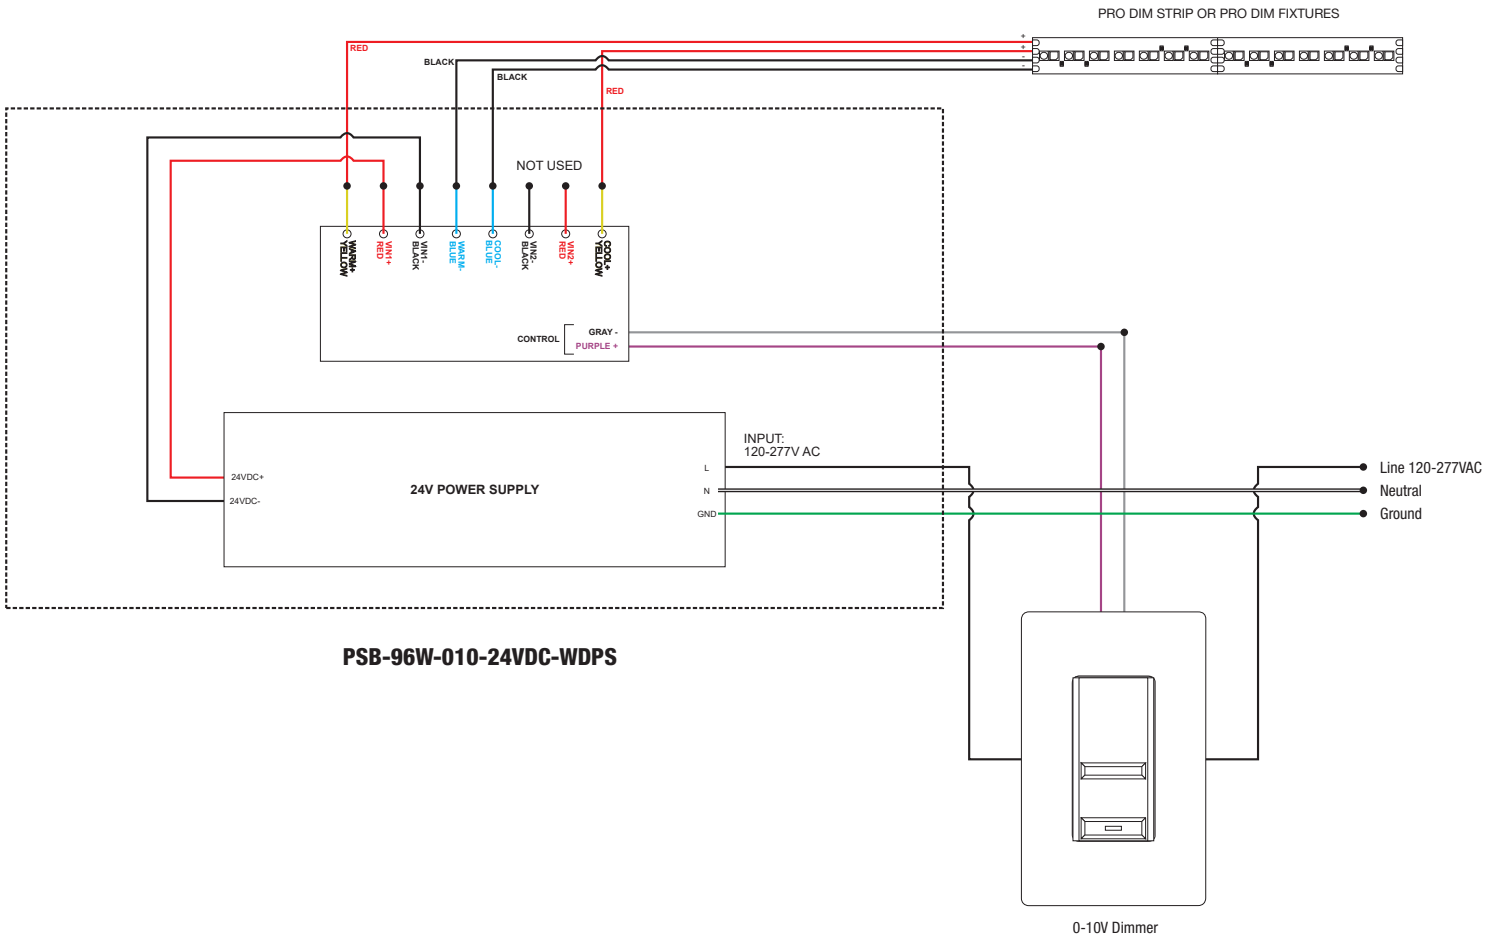

Made in the USA, UL, CE. 5 year pro-rated warranty
