

LIGHT CHANNEL COMPLETE FIXTURE 0.6 MICRO GRAZER 24VDC, SURFACE MOUNT, WARM DIM

DESCRIPTION

PureEdge Lighting's Light Channel Micro Grazer brings to life textural walls, panels, masonry, undulating tiles and so much more. The 24VDC surface-mounted channel is a versatile made-to-order, Class 2 luminaire offered in lengths from 12" to 120"(10') in 3" increments. Offered in two variations (**27D** & **30D**) our Warm Dim technology mimics an incandescent atmosphere by decreasing the color temperature as you dim. Our Warm Dim strips can be dimmed all the way down to a soothing amber hue at 1800K, reminiscent of candlelight along the halogen curve. With its combination of flexibility, customization, and quality, Light Channel Micro Grazer is an excellent choice for illuminating a wide range of textured applications. Click here for all [Other Color Temperatures](#). For Field-cuttable runs, see DIY spec sheet. Fixture includes a 5-year pro-rated warranty.
