Pirouette Cascade Round 5 Loops, 2 Swings

**DESCRIPTION**

The Pirouette Cascade Round is a flexible, architectural lighting system that blends form and function to create continuous, 360-degree illumination without pixelation. Its sculptural, minimal design provides a striking visual element while delivering exceptional color rendering for a clean, uninterrupted glow.

Designed to offer both a sophisticated aesthetic and an inviting ambiance, the Pirouette Cascade Round enhances interiors with its fluid, seamless flow. Choose from Static White, Warm Dim (27D & 30D), Tunable White (2K4K & 27K6), or TruColor RGBTW which is our premier light engine with a wide spectrum from 1500K-6500K and exceptional color rendering (96+ CRI). TruColor RGBTW takes Tunable White to the next level. With the addition of the red, green, and blue channels to the tunable white we're able to achieve a level of quality, performance, and accuracy that was previously unattainable. TruColor RGBTW can be controlled with either DMX or WiZ Pro wireless controls. With flexible configuration options and precision engineering, the Pirouette Cascade Round serves as both a functional lighting solution and a design statement, making it the perfect solution for a wide range of applications.
