24VDC REMOTE POWER, END FEED

DESIGNED BY GREGORY KAY | ASSEMBLED IN AMERICA | PATENT PENDING

REV 09.02.25

DESCRIPTION

Solina 360 24VDC Remote End Feed Suspension is a 24VDC LED linear suspension which delivers clean, uninterrupted uniform illumination—ideal for modern architectural applications. Choose from two signature 360° lens styles: with a diffused lens in a clear rigid tube which offers a smooth, continuous glow with a modern aesthetic, and the Cora Weave lens with a clear rigid tube which introduces a tactile element, showcasing a woven textile sleeve within a transparent housing. Both options provide seamless, 360° illumination and are available in 1' increments from 3' to 20' and two wattage options. Offered in multiple color temperatures, including Warm Dim (27D) 2700K and (30D) 3000K, which both dim down to 2000K. Available in Lumen outputs up to 72 lumens per watt (506 lumens/foot) at 30K using our designer-grade high CRI (color rendering) LED strip. Fixture includes a 5 year pro-rated warranty. For custom finishes, designs, quotes and layout assistance, send drawings to design@PureEdgeLighting.com.

Wattages for this fixture are available in the following options:

- 5W - 5 watts per foot, lengths up to 20'
- 7W - 7 watts per foot, lengths up to 13'
