

## **Description:**

Soft Line Indirect LED Lighting System provides soft ambient illumination for decorative and architectural applications. The suspended aluminum channel is available with commercial-grade white (SS2C) or RGB Soft Strip, or with a combination of both. For compact shipment and storage, Soft Line coils like a retractable tape measure. When uncoiled, Soft Line becomes a 1.25 inch wide cupped, rigid channel that spans opposing walls, ceiling or floor surfaces. The field-cuttable channel allows custom lengths up to 40 feet. The cupped aluminum form contributes to the luminarie's structural rigidity, acts as a heat sink and shields system components from view. Adjustable turnbuckles support Soft Line, creating a 3-dimensional look that is as functional as it is visually interesting. Fixtures include a 5 year warranty

## **Applications:**

Wherever an indirect light source can be used, including: indoor, kitchens, homes, offices, retail, hotels, clubs, displays, media room and conference rooms.
