Description:

Soft Strip (SS5) RGB provides dynamic color effects with red, green and blue LEDs. The 1/2" wide flexible copper strip, with an optically clear protective coating, is sold in 1 ft increments up to 20 ft with cutting increments every 2.4 inches. Snap & Light Power Connector is required and is sold separately (pages 3-4). Additional Snap & Light Connectors (pages 3-4) are also available for making custom configurations. At only 5 watts per foot, this system can be controlled using a compatible RGB 24 volt DC power supply with RGB DMX driver. Self-adhering SS5 mounts to most smooth finished surfaces with industrial strength 3M tape (provided on back of strip); some unfinished surfaces may require screw-in mounting clips (sold separately). Designed for indoor, open-air environments, SS5 includes a flexible aluminum heat sink to extend LED life. Soft Strip is compatible with solderless Snap & Light Connectors. Fixtures include a 5 year warranty.
